The roads were derived from the 2012 Wisconsin Local Roads (WisLR) layer, and statewide inventories of railroads and airports.

The water feature layers contain hydrography data from 1:24,000 scale sources. The data includes features represented on the US Geological Survey's 1:24,000 scale topographic map series.

The PLSS lines and areas for Jefferson County were derived from a subset of the Wisconsin DNR's (WDNR) 'Landnet' database and combined with a WDNR 24K County Boundaries layer.
