Living Well with Chronic Conditions

**Want relief from aches, pains or
fatigue?**

You'll get the support you need, find practical ways to deal with pain and fatigue, discover better nutrition and exercise choices, understand new treatment choices, learn better ways to talk with your doctor and family about your health.

If you have conditions such as diabetes, arthritis, high blood pressure, heart disease, chronic pain, or anxiety, the ***Living Well*** Workshop can help you take charge of your life.

This program is developed by Stanford University and is supported by the Aging and Disability Resource Center of Jefferson County.
