

Community Held Mock Crash Event

Every few years, primarily around prom season, local high schools and agencies participate in mock crash events to demonstrate the importance of not driving impaired or distracted. On May 20, 2016, Jefferson High School partnered with the Jefferson Fire Department to hold a mock crash that featured an intoxicated student who caused a two-car accident, injuring multiple students and killing one student. Other agencies that participated included Jefferson EMS, Flight for Life, Jefferson Police Department, Jefferson County Medical Examiner's Office, and Schneider-Michaelis Funeral Home. These demonstrations are of great value, showing students the reality and consequences of irresponsible actions. Thank you to all involved. The feedback since the event has been positive.
