Construction on County N Bridge over I-94 Scheduled to Begin June 27

Bridge will be closed during construction

Work to resurface the County N Bridge over I-94 near Johnson Creek in Jefferson County is scheduled to begin on Monday, June 27. The bridge will be closed for the duration of the project and drivers will be directed to use the County Q Bridge as a detour route to cross I-94.

Throughout the project motorists can expect to encounter:

- Construction during normal daytime hours
- Occasional nighttime construction
- Intermittent lane closures on I-94

Construction impacting I-94 will take place during off-peak traffic hours. Project completion is currently scheduled for early October. The construction schedule is based on favorable weather conditions and expected project development. Improvements to the bridge include a new deck, resurfacing pavement approaches, replacing guardrails and applying new pavement marking.
