Ben Wehmeier, County Administrator, 920-674-7101, or

Matt Zangl, Director of Planning and Zoning, 920-674-8638

## Jefferson County Public Input Needed

### Jefferson County Comprehensive Plan and Agricultural Preservation & Land Use Plan

The County, with input from residents and stakeholders, is working to update two of its long-range planning documents that outline strategies for growth and preservation of our county's assets and resources. These meetings will offer the public an opportunity to provide input that will be used to inform the future of Jefferson County. The plans will cover the topics of land use; agricultural, natural, and cultural resources; transportation; housing; economic development; community facilities; and intergovernmental cooperation.

Residents are invited to learn about the plan and provide input at four public meetings. Attendees at all four meetings will be introduced to the comprehensive plan process and provide input that will be used to develop a plan for the next 20 years. A presentation will be given at 6:00 pm followed by engagement activities. The public is invited to provide input on these important plans at one of the following meetings.
